

Model 1-BUD-Pro-G

1-BUD[®] Pro Gold Earphone

SINGLE-EAR STEREO EARPHONE - YOU'LL NEVER MISS A BEAT

SKU# 1-BUD-PRO-G

FEATURING:

- Single-Ear stereo earphone utilizes the 1-BUD patented technology to mix the left and right channels to hear all the sound in a single earpiece
- 1-BUD[®] Earphone is Compatible with most Stereo and Mono Audio Devices including the iPhone, iPad, iPod and most Tablets, Cell Phones, Laptops and MP3 Players
- 3-conductor 3.5mm L-Shaped stereo gold-plated plug is 4-feet long
- Well suited for light music, television and talk radio sound with less deep bass sound
- Heavy duty cord is designed to hold up well for daily use by those who use their earphone frequently
- The angled low-profile plug keeps the cord close to the equipment so the plug is less likely to be bumped while in use

GOLD-SERIES PERFORMANCE:

- Heavy duty cord is made for those who use their earphone frequently
- Gold-plated plug for static free connectivity
- Soft, flexible cord is less likely to tangle
- Improved overall durable design
- Built tough to handle heavy-duty use long term wear and tear
- High performance quality design
- Comes with a plastic cap on the gold-plated plug to minimize oxidization

FEATURES

- Single-Ear stereo earphone combines the sound of both audio channels into one earpiece that can be universally worn in either the left or right ear
- Earphone audio has excellent clarity and delivers good mid and high frequency ranges with slightly less bass sound
- Soft silicone rubber eartip goes down into the ear canal and helps to hold the earphone in the ear
- Gold-plated plug helps to keep the earphone static free
- Standard "medium" size eartip comes on earphone
- 1-BUD technology mixes both audio channels making this an excellent earphone for listening to audio from one ear

COMPATIBILITY

- Apple iPhone, iPod, iPad
- Also compatible with most all audio equipment with a 3.5mm headset jack including tablets, laptops, CD players, DVD players, AM/FM radios, MP3 players, video game players and television sets
- 3.5mm stereo audio plug is common to nearly all kinds of stereo equipment
- Well suited for those with hearing issues, hearing loss in one ear, hearing sensitivities or various types of medical issues which have resulted in partial hearing loss
- Meets requirements for employment situations which require workers to have one ear open to communicate with co-workers
- Good for joggers, commuters and pedestrians to safely hear what is going on nearby
