

# Model HP-085

## ADJUSTABLE STEREO / MONO HEADPHONES

SKU# HP-085

### FEATURING

- Independent volume controls for each ear, makes it possible to achieve a perfect Left-to-Right balance for those with a partial hearing loss in one ear
- Switch enables the headphones to function with STEREO or MONO audio devices
- When switched to MONO, the headphones will mix the sound of both channels together, making them ideally suited for those with hearing issues to hear the combined stereo sound
- Very flexible coiled cord with 3.5mm (1/8-inch) standard stereo audio male plug
- Packaged with a 1/4-inch (48mm) stereo plug adapter for use with stereo amplifiers
- Padded headband and cushioned earpieces for optimal comfort
- The adjustable earpieces when pushed all the way upward make the headphone tight enough for children's ears and when extended downward, the headphone expands for less tension to easily fit comfortably on adult heads as well

### DETAILS

- Independent volume controls for the Left and Right earpieces
- STEREO / MONO Switch enables the headphones to be universally used with many different types of audio equipment
- 3.5mm (1/8") male plug with nickel finish
- Comes with 48mm (1/4") plug adapter
- Coiled cord stretches to reach your audio jack
- Padded headband and earpieces
- Extend the earpieces downward, out of the headband, to optimize the comfort and fit for children, teens and adults

### SPECIAL FEATURES

- DJ-style headphones cup around the outside of the ear to help block out nearby noise and prevent your sound from disturbing others nearby
- Individual volume controls on each earpiece allow independent adjustment of sound for each ear
- Headphones are ideal for those with a partial hearing loss and other types of hearing issues
- Flexible Heavy-Duty Cord is easily managed and will stretch to 3 1/2 feet long when needed
- Padded headband and soft leather-like cushions for optimal comfort.
- Coiled cord is flexible and expands up to 3.5 feet

### COMPATIBILITY

- Compatible with all stereo and mono audio equipment that accepts a 3.5mm 3-conductor audio plug
- Included adapter converts 3.5mm plug into a 48mm (1/4-inch) audio plug
- Often used with computers, audio visual equipment, TV sets, MP3, CD and DVD players, tablets, laptop and desktop computers
- Compatible with Apple iPod, iPad and all audio equipment with a 3.5mm headphone jack
- STEREO / MONO Switch enables sound to be combined for identical sound in both ears
- Large earpiece can fit around the ear and in-ear style hearing aids
