

Model HP-66

Hearing Protective Ear Muffs

FEATURING

- Reduces the MRI Scanning Noise to Protect MRI Patient Hearing
- Can be Worn by Family Members Who May be Present in the Scan Room When Giving Comfort to Family and Friends During Their MRI Scan
- Our Ear Muffs are Made Completely Out of Plastic and Composite Materials that are Invisible to MRI Scanners
- They will not interfere with the patient imaging and are invisible to the MRI scans
- The Hearing Protective Ear Muffs are totally safe in the scan room and inside the MRI scanner because they are non-ferrous (are totally metal free).

SPECIAL FEATURES

- Excessive Noise can Cause Anxiety, Especially to Those Who Have Suffered Hearing Loss, Tinnitus, Ringing in the Ears or an Acoustic Neuroma.
- Many MRI Patients are Worried That The High Levels of Noise From the MRI Scanner Can Cause Hearing Loss or Hearing Discomfort
- These Ear Muffs Can Calm MRI Patients
- Relaxed Patients Are Far Less Likely to Move Around During the MRI Scan and This Translates to Better Scan Image Quality

COMPATIBILITY

- The Hearing Protective Ear Muffs are Inert and the All-Plastic Design is Totally Invisible to the MRI Scans
- These Ear Muffs Accepted by All MRI Facilities Because the Total Plastic Design Will Not Impact Scanning Even in the Highest Field 3.0 Tesla MRI scanners
- The Headband can be Adjusted to Increase or Decrease the Tension and Fit for Adults, Teens and Children
- Compatible with All Types of MRI Scanners
- Can also be Worn Anytime an Individual is Concerned About Hi Levels of Noise

SPECIFICATIONS

- Totally Made of PVC plastic materials.
- The outer shell is a hard plastic
- Removable cushions and foam enable the ear muffs to be totally cleaned of any germs, and then reassembled
- The ear cushions, headband and rotator clips are all replaceable parts that are stocked and may be purchased separately from Scan Sound, Inc.
- Large Size Headphone Covers (offered by Scan Sound, Inc.) can be worn over the Ear Muffs if they are being shared among different users

DETAILS

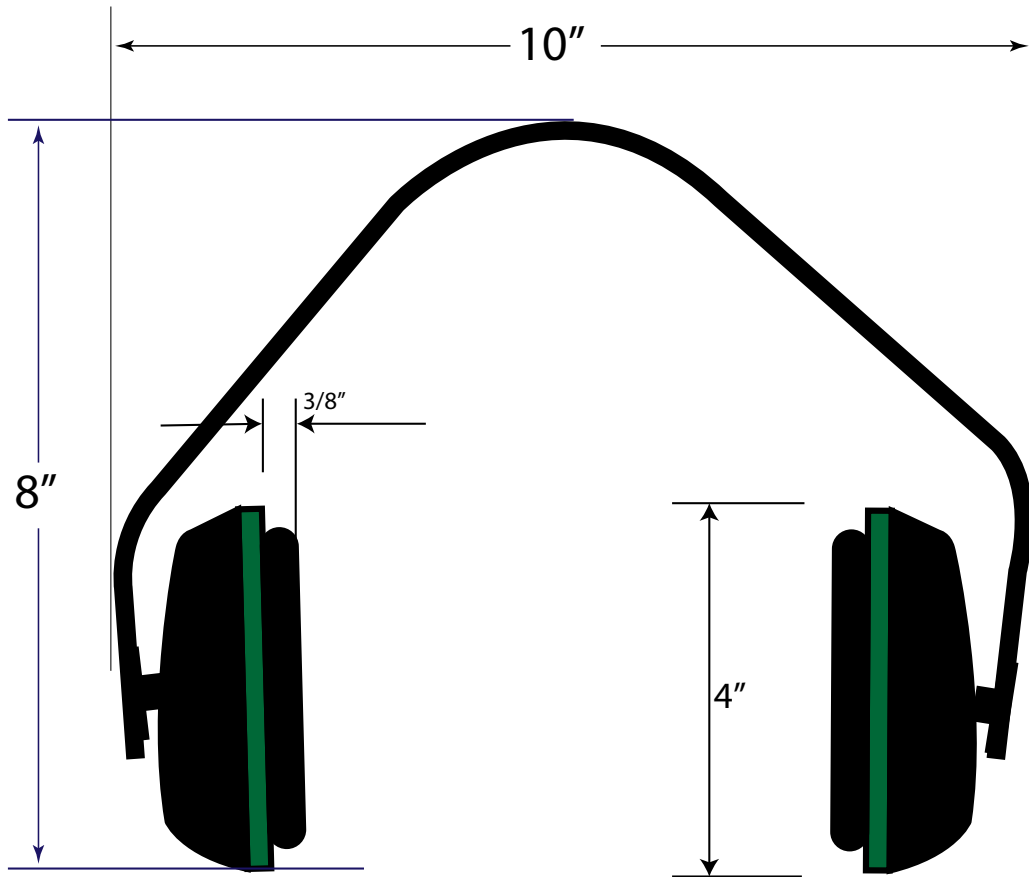

- Noise Reduction Rating -20 dB
- The Hearing Protective Ear Muffs Can be Worn with Hearing Protective Ear Plugs (sold separately) to achieve a much higher Level of hearing protection
