

Model M-101

Dual Ear Mono Earphones for Use with Monaural Audio Equipment

These Mono Earphones Have Two Earpieces and They Have a 6-Foot Cord

SKU# M-101

FEATURING

- Reasonably priced Mono Earphone with 2-conductor 3.5mm stereo plug with 6-ft Cord
- Commonly used with assisted listening devices such as the POCKET TALKER
- Each earphone comes packaged in its own plastic bag for distribution to different users
- The 3.5mm Nickel Plated 2-Conductor Plug is standard to most audio devices
- Twin Earpieces Deliver high quality sound
- These earbud-style earpieces will fit most all ears comfortably to deliver great sound
- Six-Foot Long cord will easily reach equipment, such as Hospital Television sets
- Wired earphone with 6-foot cord is designed to plug into most all types of monaural audio devices, such as translation equipment, personal amplifiers such as the Pocket Talker,

FEATURES

- Dual-Ear mono earphone provides equal sound into both the LEFT and RIGHT earpieces
- Provides excellent sound to make great audio clarity
- Earpieces comfortably fit into the ear for adults and teens
- Nickel-Plated 3.5mm Plug has two conductors with a single black band
- Six foot cord has long reach to all kinds of audio equipment
- Earphones may be low in price, but they are high quality and will perform for users over and over again because they are designed for repeated use
- Frequently used for assisted listening devices and audio assist products

COMPATIBILITY

- These MONO earphones are compatible with many types of audio devices that accept a 3.5mm audio plug
- Audio Plug is 1/8 inch in diameter, which is the equivalent to 3.5mm
- The angled audio plug takes the strain off of the cord near the plug and keeps the cord off to the side
- Compatible with hearing assist products by Williams Sound, including the Nady Pocket Talker Ultra, Pocket Talker Pro, Telex Soundmate
- Great for devices having a 2-conductor mono jack for non-stereo use by hearing disabled persons, audio/visual labs and churches
