

# Model MEP-201MR

## 1-BUD® Mobile-Right Earphone with Zippered Carrying Case and Eartips

**SINGLE-EAR STEREO EARPHONE is COMPATIBLE WITH CELLULAR PHONES**

**SKU# MEP-201MR**

### FEATURING

- Single-Ear stereo earphone with 4-conductor 3.5mm stereo plug and 4-ft 5-in cord
- Uses patented technology to mix both channels into the single, RIGHT earpiece
- Comes with 3 Eartips - The Medium "Standard" size eartip comes on earphone
- The Large and Small eartips are easily installed to maximize comfort for all ear sizes
- 1-BUD® earphone is compatible with most stereo and mono audio devices, including the iPhone, iPad, iPod, most tablets, cell phones, laptops and MP3 Players
- The small earpiece opening delivers Mid and High frequency sound into the ear canal and the larger frontal face of the earpiece delivers deep bass sound resulting in balanced high-quality stereo sound from a single earbud style earpiece
- Built-in microphone and push-button switch to seamlessly answer phone calls
- Wired earphone employs a heavy-duty, soft, flexible cord that is extremely durable
- Compatible with Apple 3.5mm-to-lightning adapter for newer iPhone models that do not have a 3.5mm audio jack (push-button does not work with lightning adapter)

### CIRCULAR ZIPPERED CARRYING CASE

- Perfect size case for cleanly and safely storing your earphone to provide great protection during periods when not in use
- Un-zip clam-shell style case for total access and easy storage of earphone and eartips
- Case is made of durable ballistic nylon material and zipper opens all the way around
- Heavy-duty snap clip can easily attach to backpack, belt-loop, briefcase or purse
- Web pocket for storing earphone and eartips

### FEATURES

- Single-Ear stereo earphone combines the sound of both audio channels into the RIGHT Earpiece
- Earphone driver produces deep bass with excellent overall sound range
- Soft silicone rubber eartip is angled to comfortably deliver great sound as it holds the earbud in the ear
- Comfortable to use for long periods
- Silicone eartip helps to passively block out external noise sources
- Gold-plated plug will not oxidize
- Gold-plated plug also helps minimize static during physical activities
- Standard "Medium" size eartip comes on earphone; Additional large and small eartips enable earphone to be customized to fit all ear sizes
- Durable high-quality earphone

### COMPATIBILITY

- Apple iPhone, iPod, iPad
- Also compatible with Blackberry Curve, Samsung Galaxy 5 and most cellular phones, tablets, MP3 players and virtually all types of audio equipment that accept a standard 3.5mm (1/8-inch) headset plug
- Slim profile straight plug easily fits through the narrow hole of most external carrying cases
- 4-foot 5-inch cord will easily reach a mobile phone in pocket or back-pack
- Well suited for bicyclists, runners, motorists, pedestrians and commuters
- Compatible with iPhone 7 and newer models when used with 3.5mm-to-lightning adapter, however push-button will not function with adapter
